

# THE JOURNAL.

THURSDAY, MARCH 18, 1883.

For the week ending March 18, 1883, the Journal was published at the office of the publisher, at the corner of Third and Main streets, in the city of St. Louis, Mo.

Published for the Proprietor, by J. F. Sauer, at the corner of Third and Main streets, in the city of St. Louis, Mo.

T. S. & W.  
Everybody smiles.  
Everybody happy.  
The Spy of Atlanta.

Hurrah for our side.  
Judge Hamilton is happy.  
The Spy of Atlanta tonight.  
The Spy of Atlanta tonight.  
The Spy of Atlanta tonight.  
Local items on the first page.  
Good evening, Sister McPherson.  
Be sure and attend the play to-night.  
Farwell words and grace in our streets.

The new railroad will not go to McPherson.  
Both propositions "safe in the promised land."  
Mrs. F. C. Wiggins of Greeley township, is critically ill.

Election was a "gorgous day" everywhere and underneath.  
There will be no more delay with the water works, sure.  
Loren Brown has purchased an interest in Hagan's grocery.

Wiggins' great storm one week from next Sunday or Monday.  
Judge Present went to Ellsworth the first of the week to hold court.  
Judge Hanke expects to return to Salina by the middle of this month.

The best of weather prophets, the geese, were flying northward on Tuesday.  
The county commissioners will convene the vote cast last Tuesday, tomorrow.

The Second M. E. church cleared \$21 at their festival last Saturday evening.  
Mr. Silas Seaman has been very ill with hemorrhage of the lungs, but is now improved.

Very few of the witnesses who were subpoenaed to Topeka in the Prescott case were examined.  
Prof. F. M. Hamilton recently went on a business trip to Connecticut, and is expected home daily.

Mr. and Mrs. C. W. Porter are visiting the family of Mr. M. D. Teague. Mrs. Porter is a sister of Mrs. Teague.  
Messrs. C. S. Martin, Garver, Prescott, Mohler and Foster came up from Topeka to worship in Salina last Sunday.

The Wittman House has been supplied with a telephone. The water works company will use two instruments.  
We will now have a "railroad law" effort on the part of the state legislature, and that will be "compensation."

On account of the indisposition of the pastor there was no services in the Presbyterian church last Sabbath evening.  
What has been bringing very good prices of late and a considerable quantity has been hauled in during the past week.

The new railroad men inform us that there will be an immediate call for 500 teams, to work along the line of the new railroad.  
The Father of his Country received very little aid and comfort from Salina in the way of public demonstrations last Thursday.

The bond voters marched up to the polls last Tuesday with unbroken ranks, and were as determined as Cromwell's battalions.  
One of the weather prophets—not as distinguished as Vennor, Tice or Wiggins, however—says March and April will be very dry.

To those intending to manufacture sorghum another season, an excellent bargain is offered by Mrs. Geo. C. Parker, in another column.  
Union township, Dickinson county, votes on the new railroad proposition on the 8th of March. That is all the voting there is to be done.

The skies were propitious, the atmosphere was propitious, and the gods were propitious. How could the election help but be propitious?  
H. S. Cunningham and Evander Light have been at Topeka, guarding Judge Hanke's interest in the Congressional Apportionment matter.

The Salina Post, G. A. R., is "looking up" rapidly. On last Saturday some nine new members were mustered. The soldier boys are waking up.  
The Salina Military Company feel pretty good over the prospect of the passage of the militia bill in both Houses. It has already passed the Senate.

The blue grass is becoming green. That's a fact. Now it is becoming green, why is it called blue grass? Will some debating society settle the question?  
Salina's solidity, last Tuesday, was stupendously stunning. It is seldom so sized a society is so successfully solidified. Salina's suffragists superbly suffragated.

The officers of the water works company are: J. E. Bonchere, President; M. M. Briggs, Vice-President; W. R. Dryer, Treasurer, and E. H. Gibbs, Secretary.  
Rev. Peter Wager, the new rector of the Episcopal church, conducted services last Sunday. The services were well attended and his sermon gave good satisfaction.

With the building of the new railroad, the construction of the water works, and the erection of several proposed buildings this spring, Salina should be reasonably busy.  
Cravens, Hayward, Ransom and Bates—good and loyal Salina boys—"on the road"—returned the first of the week to deposit their little ballots in favor of the Railroad propositions.

Jos. Masker enters Wight & Carroll's office. Charles Henne, the present clerk, expects to go east soon. Mr. Masker also has charge of the Central Office of the telephone company.  
The contract for the excavation work of the water works was awarded to W. H. Shaffer, and he commenced work yesterday. The pit for the engine will be 25x34 feet and 16 feet deep.

In Salina there were 559 votes for the railroad proposition, and only 5 against! How's that for unanimity?  
The little building occupied by F. Lunkenheimer, baker, south of the Commercial block was destroyed by fire last night.

The Abilene people have chartered a car for Saturday evening, and will be here in force to witness the play of the Spy of Atlanta.

Fred Weiler, whose death we announced last week, was the skillful cabinet-maker who had his shop in Wm. Hueston's building. He was a fine old man.

A meeting will be held one week from tomorrow at 2 o'clock P. M., in the Board of Trade rooms, to organize the new coal company. Each subscriber is requested to be present.

The proposition to remove what is known as the Bull bridge from the Salina river to the Turner crossing on the Smoky Hill, was defeated at the election in Greeley township, by a vote of 20 for to 60 against.

The Woman's Home and Foreign Missionary Society, of the Presbyterian church, will hold their monthly meeting, Friday, March 23, at 3 o'clock. A general attendance is earnestly urged. Mrs. JULIA PIERCE, Sec.

The Prescott case has developed the fact that Judge Prescott is not only a strong man in Salina county but in all the counties of his district. There is no man west of the 6th Principal Meridian who enjoys the same degree of popularity as Judge Prescott.

The ladies of the W. C. T. U. will hold their monthly meeting at three o'clock, Tuesday afternoon, March 6, at Mrs. Stidendorfs; members of the union are all requested to be present, as there is very important business to attend to. Mrs. POWELL, Sec.

Capt. Henry Baker (of Dickinson county) has purchased the lot next south of W. M. Clarkson's livery stable, and will soon build thereon a 2-story brick business house. We understand that Wight & Carroll have closed a bargain for the lot adjacent, and that they will also build a one-story building.

Mr. Bondbrake, of Abilene, was in town last Monday, on business connected with the water works. He was here principally for the purpose of letting the contract for the excavation work. The survey of the location took place Tuesday. The boilers have been shipped and work in good earnest is to be commenced immediately.

The second quarterly conference of Salina circuit, U. S. church, will convene at Salina school house, March 3, at two o'clock, p. m. Rev. I. W. Williams, Presiding Elder, Marlan, Smith county, Kansas, will be present and conduct the services. Love feast at half past nine, Sabbath morning; preaching at eleven. All are invited. J. W. ESTER, Pastor.

Judge F. A. Wickham, of Norfolk, O., accompanied by his wife, and his daughter Miss Sarah Wickham, arrived last week. Judge Wickham is the father of our A. W. Wickham. He is the editor of the Norfolk Register, one of the most influential journals of Northern Ohio. His Norfolk friends in Salina are pleased to see him still hale and hearty at his advanced age.

EDITOR JOURNAL.—In my article last week, I said the School Board paid \$200 or \$300 for the plan of the Second ward school building. I had been so informed, but one of the Board, and as good a man as there is in town, says they paid only \$50 for the plan, but it was a second-hand one; \$50 was low if they wanted that plan. T. D. W.

The following is the programme for the Salina Literary society, Friday evening, March 2:  
Essay, Mrs. T. F. Garver, Recitation, N. H. Loomis, Reading, May Bellville.

Essay, Mrs. J. W. Daily, Recitation, Miss Belle Sydnem, Optional, R. A. Lovitt.  
MUSIC.

While in Topeka the other day we went to hear Maggie Mitchell in the play of "The Little Savage." Age has dimmed none of Maggie's brilliant powers of twenty years ago. She looks on the stage not a day older, and though 53 years of age and a grandmother, in her role of "The Little Savage," she is the same clever, sunny Maggie Mitchell who captivated the largest audiences a score of years ago.

The Hook & Ladder Company celebrated Washington's birth day in a pleasant manner among themselves. Supplied with their caps and belts, they marched to the rear of Col. Phillips' residence, about half past two o'clock in the afternoon, and practiced mainly in handling their ladders. Being dismissed after the drill, they reassembled at the City Hall in the evening, where they were supplied with refreshments and passed the hours most agreeably.

The business men of Salina seem to take much interest in the coal company now being organized. Very nearly the required amount has been raised, so that the success of the movement is assured. Work has been received that a 3-foot vein of coal, and only 46 feet beneath the surface, has been discovered at Council Grove, people seem impressed with the belief that the proximity of this coal bed to Salina makes it very probable that such beds of coal can be found near our city.

The State Commissioner's report shows the following distribution of fish in Salina county:  
German Carp—Nov. 26, 1881, Brookville, 20 fish; to Wright Bros., and E. C. Clark, 20 fish each, and 20,000 New Cambria in the Salina.

German Carp—Dec. 16, 1881, Salina, 20 fish each to Gust Lindholm and A. M. Claffin; on April 15, 1882, to W. H. Geis, 20 fish. Reported lost by flood.  
Shad—June 22, 1881, New Cambria, in Salina, 10,000. June 23, Brookville, in Spring creek, 1,000. June 8, 1882, 20,000 New Cambria in the Salina.

D. R. Powers has received from his daughter-in-law, Mr. C. A. Preston, of Norfolk, Ohio, the plan and specification of his new house. The architectural drawing does credit to the skill of the artist. Mr. Preston has the reputation of calculating to a nicety the costs of construction. The building is to be of the American Cottage style, two and a quarter stories, with attic gables, and to be a 13-room house. It will occupy the ground of the deceased and will be sold for about \$5,000. Mr. Powers expects to commence the work of rebuilding about April 1.—Independent.

Imagine the peaceful, quiet content of the man who awoke in the night to hear the cheerful patter of the rain on the house top, which he believed was being drained by numerous channels into his dry, thirsting cistern. Contemplate his fury as he wakened forth in the morning to behold the "cut off" of the main water-pipe turned in the wrong direction, and a clear, smiling pond twenty feet away—the constituent parts of which were the very rain drops which he supposed were safely sheltered in his valuable cistern.

The bill allowing Boards of Education in cities of the Second-class to increase the school tax levy to 10 mills has become a law. This will assist materially in the management of the Salina schools. We give below the section of the law which provides for the increased levy:

SECTION 1. That section eighteen of article eleven of said act be amended so as to read as follows: Sec. 18. That the board of education shall, on or before the fifth day of August of each year, levy a tax for the support of the schools of the city for the fiscal year next ensuing, not exceeding in any one year ten mills on the dollar on all personal, mixed and real property within the city, which is taxable according to the laws of the State of Kansas, which levy shall be approved by the city council, and when so approved the clerk of the board shall certify to the county clerk who is hereby authorized and required to place the same on the tax roll of said county, to be collected by the treasurer of the county as are other taxes, and paid over by him to the treasurer of the board of education, of which he shall take a receipt in duplicate, one of which he shall file in his office and the other he shall forthwith transmit to the clerk of the board of education.

That original section eighteen of article eleven, of which this is amendatory, is hereby repealed.

Robert H. Buell died very suddenly and unexpectedly at San Antonio, Texas, last Friday, at one o'clock, p. m. We receive the information from Mrs. Greeley, who, with Mrs. Greeley, was with him at his decease. The remains were shipped to Zanesville, O., his former home. Mr. Buell had been suffering from consumption for several years, and came to Kansas for his health, residing with his brother, the late C. R. Buell, at the farm north-east of town. By a careful use of his powers, he had succeeded in prolonging life in a most extraordinary manner, and "held his own" for two or three years. During the past year or so, however, he has been gradually failing. He went to Texas last week, as a last attempt to save his life. Mr. Buell was probably about 45 years of age at the time of his decease. Years ago he was prominent as a railroad man, being at one time Auditor of the Baltimore & Ohio road. He was a man of much business ability, good general information and much esteemed by those who were acquainted with him. Two years ago he was honored with the nomination for Representative by the Republican caucus of this county, but failed in the election. Not long ago his wife died very suddenly at the farm and his two children were sent to relatives in the east.

The election last Tuesday resulted most satisfactorily to the friends of the railroad propositions. There were some four in the closing hours of the canvass that the propositions were losing ground, but the result proves much differently. We give below the returns from the various precincts as we have been able to obtain them, on the T. S. & W. proposition. The vote on the Kansas & Colorado proposition is little if any behind the first named.

The friends of the propositions were most agreeably surprised in the returns from Brookville and Smoky View—large voting precincts which were claimed as being solidly against the propositions. It will be observed that no more than half of the vote in each of these precincts was polled. As far as can be ascertained the majority for the propositions is between 700 and 800. The Commissioners will canvass the vote officially to-morrow, and this canvass we shall publish next week.

Agtd. For.

Smoky Hill Salina

Public School Notice.

Pupils of school age will be enrolled in the first grades during the week from March 5th to March 9th, inclusive, and not again during the school year. Parents will govern themselves accordingly. T. D. FRIZZELL, Superintendent.

Church Services Next Sabbath.

METHODIST CHURCH.

J. A. Antrim, pastor. Morning service—The Rev. Mr. Porter, of Maine, will preach at 11 o'clock A. M.

Evening service.—Subject, "The Power of the gospel. The ground of the Apostle's boast." The ground of the Apostle's boast.

Prayer meeting Wednesday evening, 7 o'clock p. m.  
Young people's prayer meeting Friday evening at 7 o'clock.  
Children's meeting Wednesday afternoon, 4:15. Mrs. Antrim, leader.

CHRISTIAN CHURCH.

G. P. Morse, pastor. Morning subject—"The Christian's Life." Sunday School at 9:30 a. m., R. A. Lovitt, Superintendent.

Prayer meeting Wednesday evening. All are invited.

LUTHERAN CHURCH.

A. J. Kiesel, pastor. Morning Service. Subject—"Luminous Christians." Evening Service. Subject—"An Expensive Sea Voyage." Sabbath School at 9:45. Prayer meeting every Wednesday evening. We will give you the hand of welcome.

Brookville News.

Warm and pleasant.

Plenty of wheat coming into town the last few days.

Choked groceries at Lagrassian & Co.

Stock Dealer passed through here Monday, on his way to New York, to visit friends.

The city restaurant is now in full bloom with R. A. Walker as proprietor. He has secured good satisfaction, plenty to eat and good clean beds. Call and see him and be convinced.

W. L. Gilmore has moved back to the Salina, and is running an engine for the Volney Hall. He sold out his interest in the city restaurant to R. A. Walker.

J. O. Wilson was up again on Tuesday looking after his business, which is accumulating very fast. A good attorney cannot help but succeed in his city if he does the fair thing.

Bavaria Items.

The teacher of the upper department of our school has returned to his home, leaving Mr. Dean many more scholars to teach. We don't wish to say who is accountable for this dispatch, but perhaps both teacher and pupils are to blame.

Our new doctor, Mr. Gault, was chosen superintendent of the Sabbath school. It looks promising.

Every one here wants Bro. Stolz, the M. E. minister, returned. More money has been raised for him than any preacher for years, still hardly enough to support his large family of eight persons.

Weather warm and pleasant; we saw Mr. Porter had a team plowing last Saturday and yesterday says he is trying his new Casey and it just beats everything.

Election quiet.

Bonds carrying.

Things sold at Mr. Holbeck's sale at the Salina, and the price is hard to beat for a auctioneer.

Bridge Items.

Prof. Perill has been employed to teach the summer term of the Bridge school.

Miss Carrie Gillum was taken very ill suddenly Saturday evening, is now improving under the care of Dr. Van Eaton.

Rev. Leigh delivers his farewell sermon, provided he is not sent back for another year, at the Bridge school house next Sunday at 10 A. M.

Squire Reynolds and Stephen Kott are in the eastern part of the state after stock cattle.

John Kingman has quite a number of native hunter (mostly cottonwood) stacked up on his place, the product of home manufacture, and sells readily at \$20 per thousand.

Johnathan Tinkler made a flying visit to Council Grove last week bringing home two deer and a buck.

Geo. Painter, D. Harkins and Mr. Gaffney are boss fishermen, having fished out of Gypsum creek a span of three weeks, and a lot of fish have been secured. The fish are now being packed and sent to market.

On the fifth of this month the M. E. Parsonage was visited by a small cyclone, which followed our extreme cold weather. The nature of the cyclone was changed a little from the usual ones, as it did not bring with it much rain, but it did bring a lot of hail, and many other good things too numerous to mention, all of which were of great benefit to the place. Time was had by all present, and no doubt the pastor is willing to be struck often with that kind of cyclone.

Notes from Topeka.

We are confirmed in our observation by the opinion of some good farmers, that the wheat is all alive yet, and the soil is sufficiently wet, since our last rain, to insure a rapid growth, as soon as the weather is warm enough. The frost is all out of the ground, and if we get no more rain plowing will soon commence.

While calling at Mr. J. Tinkler's a few days ago, we took a peep at his collection of deer. He recently brought two from Council Grove. These beautiful creatures are pleasant reminders of the not very long ago of this part of the State. The deer has some fine specimens of a good grade of otterwood sheep—a cross with the merino—and Dan Rhodes can converse fluently and eloquently of the deer and all its natural adjuncts of the farm. Wm. Stahl's graded Mexicans are in excellent condition and doing well. All of the sheep, not too old, and not infected with the scab, have wintered well.

J. H. Kingman has quite a formidable looking lumber yard—the product of his own farm.

The assault and battery case which was to have come off before Esquire Meiring last Friday, failed on account of the non-attendance of the defendants, on the principle that the same body cannot occupy more than one space at the same time. There were some four in the closing hours of the canvass that the propositions were losing ground, but the result proves much differently. We give below the returns from the various precincts as we have been able to obtain them, on the T. S. & W. proposition. The vote on the Kansas & Colorado proposition is little if any behind the first named.

The friends of the propositions were most agreeably surprised in the returns from Brookville and Smoky View—large voting precincts which were claimed as being solidly against the propositions. It will be observed that no more than half of the vote in each of these precincts was polled. As far as can be ascertained the majority for the propositions is between 700 and 800. The Commissioners will canvass the vote officially to-morrow, and this canvass we shall publish next week.

Notes from Topeka.

The Gymnasium Valley Farmers' Club met at the house of R. Thwing, Esq., last Saturday; there was a large attendance, but in consequence of the bad roads and sickness, the editor, essayist and some of the select readers were absent. H. A. Blair was elected a member. The next meeting of the club will be at the house of Mr. F. Rodgers four weeks from this date, March 17. Dr. Van Eaton in his usual happy style opened the discussion (Winter employment for Farmers). He was followed by G. W. Hixson and G. White. Miss Jennie Rogers read a paper, entitled "The Poor Man to his Son." Miss Emma Hughes, Miss Iva Thwing, W. E. Walker and others rendered some excellent vocal and instrumental pieces. Programme for next meeting: Corn culture—preparation of the ground, varieties and culture; R. F. Whithead to open the discussion; G. W. Hixson, editor of the paper; Dr. Van Eaton, Essayist; Miss C. Gillum and S. Post, select readers. The meeting was very interesting which added much to the enjoyment of the meeting.

The blizzard appears to have left us for a time and corn gathering is in full blast.

Public Opinion.

Public opinion in favor of the new railroad is increasing, and no doubt there will be a large majority in favor of it.

Prof. Wiggins' prophecy about the storm in March are making many persons very nervous. If he has facts to back his prediction on, why don't he give them to the public. If he is only causing this alarm for the sake of notoriety, then he ought to be held up to the just scorn of the world. G. W.

Assaria Items.

Weather beautiful.

Eggs are high in the market.

It will not be long until Easter.

Wild geese were seen going north.

Railroad bonds failed to carry in this and Liberty townships.

Swan Culver, of Salina, shipped a car load of hogs from our town last Tuesday night.

Wheat is still coming to market, and our merchants report good business.

Everybody is happy and the new-dog larks are singing their praises.

We will venture the assertion, without fear of successful contradiction, that Assaria will improve and grow more the coming season than any other town in Salina county.

By request—in a conversation, a few days ago, between one of our society ladies and a lady from Council Grove, the following passed. During the talk our S. L. made the remark that she did farm-life in Kansas; that she had learned that she was just "as frugal as a settler's hen, as she was of a kind of cow!" N. O. Moore.

SALE MARKETS—February 15, 1883.
